

Spare Parts Exemption

7-Years Needed to Comply with
California Law

Spare Parts Exemption

- CEC already recognized manufacturers' legal and customer service obligations
 - Must stock and supply spare parts for sale, servicing and warranty claims
 - CEC's 3-year spare parts regulation falls short of current California law
 - Law stipulates manufacturers provide spare parts up to 7 years
 - California Civil Code, Section 1793.03

Spare Parts Exemption

- Simply stated, CA law requires all manufacturers of products valued \$100+ to make available spare/replacement parts for 7 years
- Ask the CEC to adhere to CA code and amend regulation & make it consistent with existing state law
